Data Analyst

Greetings! I am Oladosu Eniola Emmanuel, a recent high school graduate deeply passionate about the world of data analysis. Equipped with a solid grasp of SQL, Python, R, data visualization, statistical analysis, and machine learning, I am eager to utilize these skills to derive meaningful insights from data. My educational journey has equipped me with the knowledge and motivation to tackle complex problems, and I am excited to showcase my proficiency in utilizing these tools and methodologies to creatively analyze data and contribute to the data-driven decision-making process.

In my endeavors, I've honed skills such as database manipulation, predictive modeling, data cleaning, and advanced analytics. I strive to demonstrate the versatility of my abilities in various aspects of data analysis. Join me as we delve into the intriguing world of data, uncover its hidden stories, and unlock its vast potential for innovation and positive change. Together, we can make data-driven impacts that resonate in various domains.

Technical Skills

- Python, Pandas, Numpy, sklearn
- R
- Tableau, Power Bi
- Seaborn, Matplotlib, Plotly
- SQL, MYSQL
- Web Development (HTML, CSS, OOP PHP, LARAVEL)
- Git, Airflow
- Scipy Stats, Statsmodels
- MS Excel, PowerPoint, Word, Project

Professional Experience

Data Entry Clerk | God's Own Venture

2022 - Present

As a dedicated Data Entry Clerk at God's Own Venture, I played a vital role in maintaining accurate and up-to-date databases essential for the smooth functioning of the organization. My primary responsibilities included meticulously entering, updating, and verifying critical business data into the company's proprietary database system.

- **Efficient Data Processing:** Demonstrated exceptional proficiency in entering large volumes of data with accuracy and speed, ensuring all information was logged precisely within specified timelines.
- **Quality Assurance:** Implemented rigorous data validation processes to maintain high data integrity, conducting regular quality checks to identify and rectify discrepancies.

- **Collaborative Teamwork:** Collaborated with cross-functional teams to ensure seamless flow of data, facilitating effective communication and assisting colleagues in accessing accurate information for their respective tasks.
- **Task Prioritization and Time Management:** Developed strong organizational skills to prioritize tasks effectively, efficiently managing workload to meet daily, weekly, and monthly targets consistently.
- **Technology Utilization:** Utilized various software and tools to streamline data entry processes, leading to increased efficiency and reduced error rates.
- **Adaptability and Learning:** Adapted quickly to new systems and processes, demonstrating a strong ability to grasp new concepts and improve data entry techniques, ultimately enhancing overall productivity.

My experience at God's Own Venture significantly enhanced my data entry capabilities and provided me with a solid foundation for working with large datasets and maintaining data accuracy and quality. It also reinforced the importance of collaboration and effective communication within a professional setting.

Education

Secondary School Leaving Certificate (Equivalent to High School Diploma) 2022

Completed and passed with flying colors which is The West African Examinations Council (WAEC) certificate, which is a common qualification in West Africa.

Professional Retraining & Certifications

In my perspective, the most effective method of demonstrating one's skills is through hands-on experience and sharing the results, with certificates often being an indirect outcome.

Consequently, I've compiled a list of my certifications, arranged in reverse-chronological order and accompanied by their respective completion dates.

- [Coursera Full Data Analytics Training Course](#) (May 31, 2023)
- [Basics and Advanced Power Bi Course on Uniathena](#)(September 7, 2023)
- [Microsoft Power Bi Course on Great Learning](#) (September 9, 2023)

Achievements

- **Outstanding Performance in Coursera Data Analytics Training:**

Achieved an exceptional score of 98% in the Data Analytics training on Coursera, demonstrating a deep understanding of the subject matter and a high level of proficiency in utilizing data analytics tools and techniques.

- **Consistent Academic Excellence:**

Maintained a consistent record of academic excellence, earning top grades and accolades in various subjects and assessments.

- **Solving Managerial Challenges at God's Own Venture:**

Employed analytical skills to identify and resolve managerial issues, optimizing processes and improving operational efficiency at God's Own Venture.

- **Tableau Viz of the Week Recognition:**

Acknowledged for creating one of the best visualizations of the week on the Tableau platform, demonstrating proficiency in impactful data visualization.

- **Community Involvement and Volunteer Work:**

Actively engaged in community service and volunteer work, making a positive impact by dedicating time and effort to various social and environmental causes.
